Ghaziabad, Uttar Pradesh - 201017, India

OBJECTIVE

Motivated and detail-oriented Computer Science graduate with a strong foundation in programming languages such as Java, C++, and Python. Proficient in web technologies including HTML, CSS, Bootstrap, JavaScript, and React JS, with experience in developing responsive and user-friendly applications. Knowledgeable in database management systems like MySQL and Django, and well-versed in CS fundamentals such as Operating Systems and DBMS. Adept at using development tools like VS Code and Canva to enhance project workflows. Seeking an opportunity to leverage my skills and enthusiasm to contribute to innovative software development in a dynamic work environment.

WORK EXPERIENCE

- **Colan Infotech**  October 2024 - Feb 2025
Web Developer Intern Remote, India
 - Utilizing Django's built-in ORM system to interact with a database.
 - Worked on various functionality of Django such as ORM Abstraction, Model Definition, etc. improving Development time, Code Readability.
 - Collaborated with cross-functional teams to implement and embed new features like Leads and stats page.
- **Farenexus**  August 2025 - November 2025
Business Analyst Mohali, India
 - Gathers requirements, translates them into Power BI solutions, builds reports, and communicates insights to business stakeholders.
 - Analyzes complex datasets, identifies trends, cleans data, and builds visualizations for performance monitoring.
 - Translating business needs into technical specs, using SQL to understand system data, validate requirements, and help developers with data-related issues.

EDUCATION

- **Chandigarh University** September 2021 - June 2025
B.E. Computer Science & Engineering Mohali, India
 - CGPA: 7.21/10.00
- **Kendriya Vidyalaya** April 2021
Intermediate Delhi, India
 - Grade: 94.6%
- **Kendriya Vidyalaya** March 2019
High School Delhi, India
 - Grade: 84.8%

PROJECTS

- **Sales Performance Analysis: Internship Project** August 2025 - November 2025
Tools: Power BI, SQL, Python, Pandas, Excel
 - Collect, process, and interpret large sales datasets, creating regular reports, dashboards (KPIs, trends), and visualizations for management.
 - Track key sales metrics (territory, product, rep performance) and provide updates on performance against goals.
 - Identify sales opportunities, weaknesses, market trends, and competitive actions to propose strategies for growth.
- **Tour and Travel Website** January 2023- May 2023
Personal Project | HTML, CSS, JavaScript, PHP, MySQL
 - Designed and developed a responsive, user-friendly website for a fictional tour and travel agency, enabling users to browse destinations, book packages, and contact agents.
 - Implemented features such as destination filtering, booking forms, and real-time contact support to enhance user experience.
- **E-Commerce Store Analysis: Freelance Project** January 2023- May 2023
Tools: Power BI, SQL, Python, Pandas, Excel
 - Generate reports and dashboards on e-commerce KPIs for management.
 - Study customer behavior, purchase patterns, and feedback (reviews, surveys).
 - Develop strategies to improve conversion rates, sales, and customer engagement.
 - Act as a liaison between business, marketing, technical, and product teams.

SKILLS

- **Programming Languages:** C++, Python
- **Web Technologies:** HTML, CSS, Bootstrap, React JS, Node JS
- **Database Systems:** MySQL, Django
- **CS Fundamentals:** Operating Systems, DBMS
- **Tools** VS Code, Linux
